

#### Variants frame cover profiles

#### Water drainage:

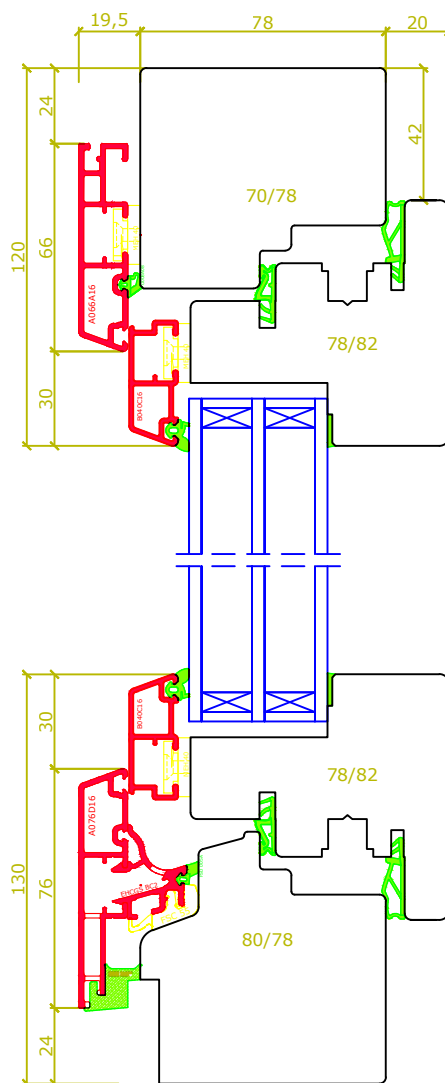

A066J16      downwards (width 66mm)  
 A076D16      downwards (width 76mm)  
 A086J16      downwards (width 86mm)

Water drainage towards front not possible with this system!!!

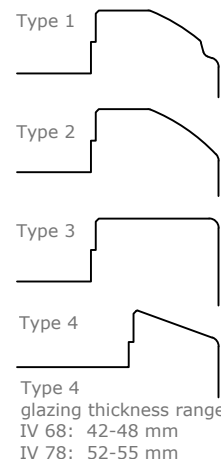

timber projection beyond aluminium variable depending on timber width

timber widths up to 80 mm (sides and top) no extra cost -> above 80 mm see price list

Please take into account extra cost for increased glazing thickness if type 4 glazing bead is chosen!!!

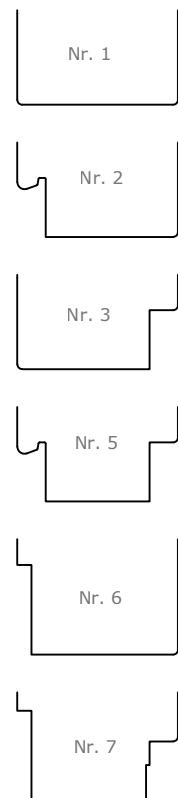

#### Internal bead profiles

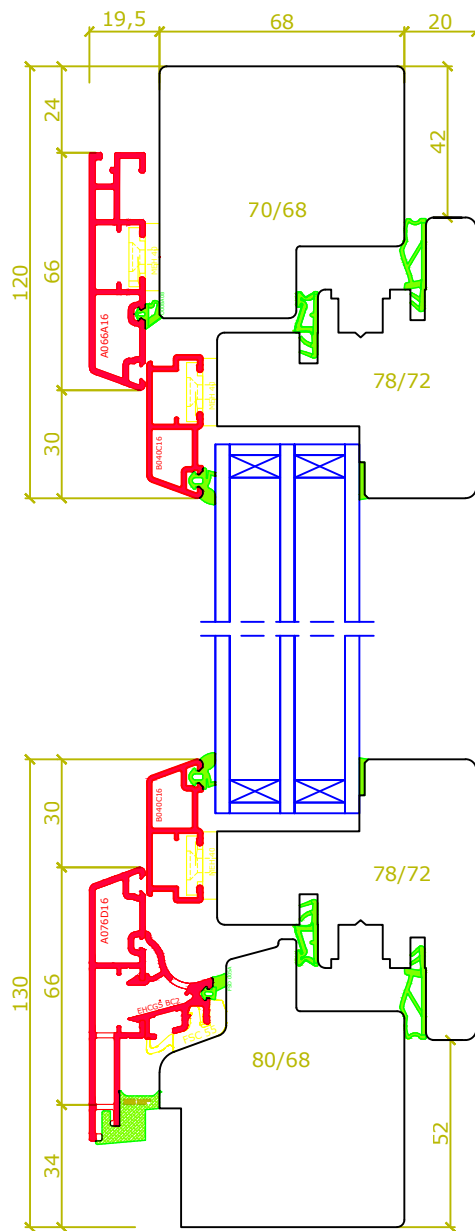

(Please note: Extra cost for increased glazing thickness -> see price list)

#### Sill rebate standard options
